A Resolution to Amend the Platform of the Georgia Green Party; and for other purposes.

A Resolution of the  
2024 Additional Nominating Convention  
of the Georgia Green Party

**Resolved**, that the Platform of the Georgia Green Party is amended, by adding to the chapter on *Foreign Policy*, a new section to read:

#. Ensure US Compliance with its Obligations to Prevent Genocide

In light of (1) the acknowledgement by the International Court of Justice that a 'plausible genocide' is being conducted by the state of Israel against the Palestinian people, particularly with respect to its actions in Gaza, and (2) our nation's obligation as a signatory to the " Convention on the Prevention and Punishment of the Crime of Genocide" (signed: 1948-December-11; ratified by the US Senate: 1988-November-25); the Georgia Green Party demands of the federal government of the United States, that it:

- add to the list of State Sponsors of Terrorism, compiled by the Secretary of State, the State of Israel;
- take immediate and serious steps to end Israeli aggression against the Palestinian people by ending all military and other aid to the Israeli government, particularly by ending the transfer, by whatever means or description, of weapons and munitions directly or through intermediaries to the Israeli government;
- immediately repeal Title III, related to 'Funding Limitations for United Nations Relief and Works Agency' of HR-2882, entitled "Further Consolidated Appropriations Act, 2024", signed by the President on 2024-March-23, as Public Law 118-47, so US tax dollars can contribute to relieving the suffering funded out of our pockets;
- take whatever steps are necessary to lift the siege of Gaza;
- expel the Israeli ambassador and diplomatic mission to the United States and close their embassy and consulates in our nation;

- recall our own nation's ambassador and diplomatic mission from Israel, closing our embassy and any consulates operated by our nation for the purpose of conducting diplomatic relations with Israel;
- open and staff an embassy for the conduct of diplomatic relations with the Palestinian Authority, appointing an Ambassador to the Palestinian Authority;
- oppose the Abraham Accords, including the investments of US assets and resources or through other diplomatic means to encourage *normalisation* of relations between Israel and its regional neighbors;
- end all forms of diplomatic, military, security and commercial cooperation with the Israeli regime;
- reverse any U.S. policies which seek to impose on our global neighbors efforts to shackle their governments or populations with respect to their relationship with the regime occupying Palestine, or to regulate participation in campaigns of boycott, divestment and sanctions of Israel or of nations that support and cooperate with Israel;
- prosecute as mercenaries, US nationals who participate in the military or security forces of a foreign state which utilizes terrorism, war crimes, crimes against humanity, human rights abuses or genocide to advance their interests.
